# AWARDS OF EXCELLENCE

“EDUCATION IS THE MOST POWERFUL WEAPON WHICH YOU CAN USE TO CHANGE THE WORLD.”

-Nelson Mandela

## About Us

Elpro International School (EIS) is a state-of-the-art institution, based in Chinchwad, Pune. As a reputable school, it offers Montessori, CBSE, Cambridge Assessment International Education curricula and International Baccalaureate Diploma and Career Programme that imparts quality education to students ranging from Kindergarten to Grade XII.

At EIS, we believe in offering the best, by constantly pushing the envelope and staying true to 'out with the old, in with the new'. Education is evolving, and we are upgrading at the same pace. Through our well-grounded faculty, trailblazing academics and curricula/certifications, by integrating STEM technology, world-class infrastructure and facilities and dedicated support staff, we aim to continue encouraging local talent with a global approach,

## Vision

To be the premier educational institution that provides its learners with an environment that inculcates a growth mind set, instills universal values and equips them with high Emotional Intelligence and technological skills to face the 21st century.

## Mission

Our Mission is to ensure that our learners achieve personal excellence and are ready for a technology-driven world with futuristic skills. We strive to make strong individuals, who are energetic, respectful, empathetic and focused, embarking on a journey of possibilities without the fear of failure.

# Winner of 52+ National & International Awards

## Academic Excellence

Academics at EIS are rigorous, engaging and reflective. With the guidance and mentorship of dedicated teachers, students embark on an academic journey rooted in inquiry, classroom discussion and problem-solving.

Students of EIS learn by thinking critically and creatively, taking action and then reflecting on their discoveries. Our interdisciplinary curriculum brings together diverse disciplines in a comprehensive manner, enabling students to develop a meaningful understanding of the complex associations and influences within a topic. This endeavor involves extensive research and enhances the creativity, innovation, time management skills and social skills of the students.

The academic curriculum is designed to encourage curiosity. Our students don't simply seek to know, but rather to understand the "why" of their learning and then apply those principles beyond the classroom.

The various innovative teaching practices and opportunities provided to students across verticals reflects in the outstanding results of the school. EIS has a very proud tradition of outstanding academic performance and achievements. Our academic goals are dominated by the principle of 100% pass rate which is regularly achieved. We live by our motto – "leave no student behind".

## Pre Primary

Elpro First Steps is a combination programme of the world's best practices in Pre-school segment along with Montessori methodology. The programme appreciates and focuses on developmental and age appropriate curriculum.

This programme provides opportunities to build self-esteem and confidence, learn social skills and develop learning dispositions

We believe that:

- Love and security is the foundation of positive childhood development
- Social and emotional development is critical for young children
- Following the lead of the child is the core Montessori philosophy
- An enriched and well prepared environment is the key for a satisfying experience for children at school

## Primary

The curriculum followed in junior classes focus on several innovations which are introduced after much research and study. We encourage project based learning which gives our students a holistic view and allows them to apply knowledge and correlate various subjects to real life situations.

The subjects offered are English, Hindi, Marathi, Mathematics, Environmental Studies and Information Technology for grade 1 & 2. For grade 3 upwards we have English, Hindi, Mathematics, Social Studies, Science and Information Technology.

The methodology of delivery is unique which has been developed in consultation with leading experts. Lessons are planned so that students get to learn their subjects in a practical manner with a plethora of projects and activities.

## Secondary

The Academic Curriculum in Secondary classes at EIS aims at a holistic development of every child. It facilitates development of skills that emphasize daily living skills, community skills, recreation and leisure, and employment. Students follow the regular curriculum, but emphasis is placed on the above mentioned skills that are the most desirable.

The curriculum followed in Secondary classes is according to CBSE guidelines and NCERT curriculum.

Integrated studies, sometimes called interdisciplinary studies, brings together diverse disciplines in a comprehensive manner, enabling students to develop a meaningful understanding of the complex associations and influences within a topic. This endeavour involves extensive research and enhances the creativity, innovation, time management skills and social skills of the students.

Activity based learning: Every topic in all subjects is reinforced with research based, skill based or hands-on activities.

Use of ICT: The class room learning experiences are supported by audio visual aids like Powerpoint presentations, Audio /Video clippings etc.

Microsoft 365 for Education : We are a MS 365 school and all our student are give ID's to refer to upload notes and assignments.

Sports options: Sports options offered are Foot ball , Basket ball , Cricket , Archery , Badminton, Volley ball, Skating and Chess.

Hobby clubs: Every week students of class I to VIII attend Hobby clubs according to their interests. The hobby clubs offered are MUN club, Public speaking, Dance , Music – Vocal and instrumental , Cooking without fire , Art , IT , Reading , 3D Printing , Chess , Dramatics etc.

House activity: House meetings and inter house activities are held weekly to promote the spirit of team work and coordination among the students.

# Our Flagship Events

Events and Activities are the breadth and vitality of an institution that allow students to develop on the skills which cannot be nurtured in the confinements of a classroom. Our array of flagship events gives our students a platform to pursue their passions and exhibit their talents. In totality they are a kaleidoscope of experiences that define the qualities of team work, leadership, collaboration, planning and decision making in the young children. Our events like Melange- interschool youth fest, Fiesta Fantasia, the carnival, Concerts and Sports Day add a dimension to each child's personality which is the hallmark of a great learning.

# Excelling in Technology Education

Information technology has created a niche in the education sector which cannot be ignored. We believe that intervention of IT is integral to optimize learning at various verticals and have integrated Information technology effectively in our curriculum right from Nursery to Class XII at various levels that gives the students ample opportunities to learn and explore.

For children, computer technology has provided an indescribable wealth of resources, information and knowledge. Research has also suggested that computer technology has helped students to improve their grades in other subjects, most notably science.

The school also believes that technology also has the potential to transform education by extending the learning space beyond the four walls of a classroom and offers a variety of learning opportunities beyond the physical limits of school.

We have to our dossier:

### STEM LEARNING

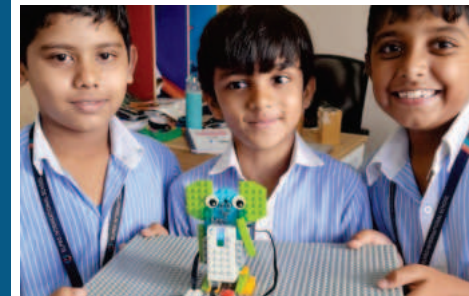

'Engineering for Kids' (EFK) is an America's award winning unique program. It incorporates STEM education to inspire the next generation of engineers. Technological learning through experiential and hands-on learning approach is an effective way to introduce engineering concepts to children at an early age.

STEM classes include Robotics Program that provide a supreme learning edge to help explore science and technology in a fun learning manner.

Information technology has created a niche in the education sector which cannot be ignored. We have integrated Information technology effectively in our curriculum right from Nursery to Class XII at various levels that gives the students ample opportunities to learn and explore. For children, computer technology has provided an indescribable wealth of resources, information and knowledge. Research has also suggested that computer technology has helped students to improve their grades in other subjects, most notably science.

With the current accelerated growth in devices, we are already witnessing the emergence of flexible, open learning environments that enable contextual, real-time, interactive and personalized learning. Enabling a highly optimized infrastructure for IT in educational practices has hence become the need of the day

## Willing Hearts!

Embracing Compassion and Creating Change At Elpro, we firmly believe that the essence of humanity lies in our ability to show love and compassion to our fellow beings. Compassion, indeed, is the pinnacle of emotional maturity, forming the bedrock of all moral virtues. Today, we take immense pride in our initiative - "Willing Hearts," the EIS Community Love program, a beautiful journey towards nurturing young minds into compassionate and empathetic individuals. Collaborating with remarkable organizations like Goonj, SNEH Foundation, and the Stop SARAM program, our students have embarked on a remarkable journey of service and selflessness. Together, we stand united to usher in positive change, not just within the walls of our school, but out into the world we share.

Our young enthusiasts have fearlessly taken on a plethora of campaigns, each striving to make our society a better place and our environment cleaner. From Road Safety Week to Daanotsav, from International Day of Literacy to Adult Literacy Campaign, our students have not only participated but poured their hearts into these initiatives. They've championed causes that matter: creating awareness about sexual abuse, fostering digital literacy, and standing with Goonj for Kerala Floods through Campaign Raahat.

Through these initiatives, our students aren't just learning about compassion; they're living it. They're igniting sparks of change, illuminating the darkness with their empathy, and proving that the spirit of giving knows no age. As we reflect on our journey, we're immensely proud of the students, the teachers, and everyone who has contributed to the success of these campaigns.

# After School Activity (ASA) at ELPRO

At Elpro International School, we believe in nurturing well-rounded individuals who excel not only in academics but also in extracurricular pursuits. Our carefully curated After School Activities program offers a diverse range of options to ignite your child's passions, promote physical fitness, and encourage creative expression.

Here is the list of activities happening under ASA -

Cricket

Football

Karate

Basketball

Arts

Gymnastics

Archery

Skating

Dance

Martial Arts

Chess

Volleyball
